

Thiago Saraiva

Software Engineer

EXPERIENCE

Frontend Engineer

Pinterest

Jan 2024 - Present

Pinterest is a media platform where users can upload, view, share, and save pictures. These pictures tend to be creative and inspirational for users. I worked on developing and maintaining the Pinterest Business platform, which helps content creators, businesses and advertisers promote their products.

FullStack Engineer

Luiza Labs | Magalu | Crédito Express

Oct 2021 - Dec 2023 - 2 years

Luizalabs is the innovation and technology area of Magazine Luiza. A fantastic experience, we developed credit analysis tools and internalized third party tools adapting them to the company's needs.

Fullstack Engineer

Cheesecake Labs

Aug 2020 - Sep 2021 - 1 year

Cheesecake Labs is a software design and engineering company that aims to help create successful technology products, considered by the ranking site Clutch that is one of the most respected authorities for evaluation of software design and engineering companies, to rank among the top 10 globally in mobile development. A fantastic experience working with Cheesecake and the whole team.

Mobile Engineer

Accenture | Concrete

Jun 2018 - Jul 2020 - 2 years

Concrete is now one of the main mobile development offices at Accenture, working with the main brands and companies in the country to develop digital products and platforms. It is a unique experience to work for a giant like Accenture and have direct contact with such rich processes.

EXPERIENCE

Fullstack Engineer

Labsit

Apr 2017 - Mar 2018

Labsit is more than a software house, delivered more than technology, app or platform, but a complete customer experience. I developed my skills a lot both in my stack and in other technologies.

Frontend Engineer

Brasilseg

Jan 2015 - Mar 2017 - 2 years

Nova Tendência is a software solutions provider for Asset Managers, Brokers, Custodians, etc. Among one of the company's clients the Banco do Brasil maintains the Brasilseg project with them. It was an incredible experience both in learning and in the challenges I had, it changed a lot the way I work in a team.
